

RRT-3UVPX-SATA-R-A

3U VPX Air Cooled SATA Carrier with Removable SSD Module

The 3U VPX Air Cooled SATA carrier with removable SSD module is for applications that require the frequent removal of SSD, fast transfer rates and large capacities. It consists of two components; the 3U VPX carrier board with SATA interface that mounts in one slot of 3U VPX chassis and the removable SATA SSD module. The connectors between the drive module and the carrier are rated for 100,000 mating cycles to support frequent insertions and removals.

The drive module can use any COTS 2.5" SATA Solid State Drive (SSD) providing capacities up to 16TB and transfer rates of up to 600MB/S. Options for TCG opal and military erase.
